work experience

Cloudo, s.r.o. – Front-end Developer
12/2014 – 01/2016

Cloudo is a productivity app that lives in your browser and lets you launch and search your cloud tools. Simple commands allow you to open a new Google Doc, add a task to Trello or just see the current GitHub issues. You can search for stuff across all your services and fire up quick actions like getting a share link or downloading a file.

Description: I'm responsible for implementing visual and interactive elements that users engage with through their web browser when using a web application. We work with technologies like React, Redux, Gulp, mocha etc.

Skom, spol. s.r.o. - Electrician
07/2014 – 09/2014

Company SKOM, spol. s.r.o., is reliable company supplying and installing the security systems of many reputable producers and providing the customer with security of high technical standard, reliability and long working life.

Description: Assembling different types of security systems, motion and sound sensors, recording devices mainly in drugstore and personal flats.

Restaurant Au Cafe - *Parking Management*
05/2014 - 06/2014

Description: Welcoming guests and parking their cars.
